**NOTE: The quality of a DVD cannot exceed that of the video source** from which it is mastered, meaning if your video tape has static, jumpy, or out-of-focus, too dark, or too bright, this will be transferred exactly to the DVD . However, for an additional charge, can be edited-out. Certain older DVD players may not be incompatible with "burned" DVDs (i.e. DVD-R, DVD+R).

**Editing & Special Effects (optional):**

**\$30 for each hour of video** (Flat-rate, 1 hour minimum charge). This is for **Linear editing**: we remove any blank tape, blue screen, static footage, or unwanted footage you list.) – or - **\$5 per item** : for each **Item less than a minute to Remove** or **Add** (you must give us the minute mark from your tape), or for **Special Effects** (such as Fade-in, Fade-out to a new scene), or to add additional **Chapter titles**.
